## INTRODUCTION

NEPCon is an international, non-profit organisation that delivers sustainability services and engages in innovation projects to facilitate the transformation of business practices and consumer behaviour to promote the responsible use of natural resources. Around 1,300 Chain of Custody-certified clients benefit from our over 15 years of experience in providing services to the forest supply chain sectors – including timber processing and manufacturing companies, printing houses, publishers, paper merchants, traders and retailers of all sizes. Through a well-developed network of regional representatives and contractors, NEPCon offers timely and cost-effective certification services around the world.

The purpose of this report is to document performance of *Jilin Chemical Fiber Stock Co., Ltd.* hereafter referred to as "Company", against the requirements of the Verification Framework and Guidelines, (February 2019 version<sup>1</sup>) and further guidance documents<sup>2</sup> developed by Canopy and approved, supported and requested by the Fashion and Textile Leaders for Forest Conservation (Leaders Group)<sup>3</sup> and the over 200 brands, retailers and designers looking to implement their sourcing policies for man-made cellulosic textiles. The focus of this verification audit is to manage the risk and avoid sourcing from ancient and endangered forests and other controversial sources and implement other sustainable sourcing measures, across the supply chain from the point of wood harvesting in forests and/or plantations and through to the brand and retail customers. Man-made cellulosic fibre (MMCF) producers, are required to document and provide evidence towards a set of pre-defined social and environmental criteria and key progress indicators as part of the CanopyStyle initiative.

The audit presents the findings of NEPCon auditors who have evaluated company systems and performance against the applicable standard(s). Section 4 below provides the evaluation conclusions. The auditor reviewed and used Canopy's map of ancient and endangered forests, which has been overlaid with the sourcing regions and list of suppliers of the company to assess the level of risk.

Dispute resolution: If NEPCon clients encounter organisations or individuals having concerns or comments about NEPCon services, these parties are strongly encouraged to contact the relevant NEPCon regional office or any member of the NEPCon Chain of Custody Programme. Formal complaints and concerns should be sent in writing.

## 1. GENERAL DESCRIPTION

### 1.1 Company overview

Jilin Chemical Fiber Stock Co. Ltd was established in 1960 and began production in August 1964. Currently the number of employees amounts to 4,549. Jilin Chemical Fiber Stock Co., Ltd is a major subsidiary of Jilin Chemical Fiber group with one viscose mill.

It is under the progress of obtaining a number of third-party certificates, including the ISO9001:2008 quality management system, ISO14001:2004 Environment Management System, OHSAS18001 Occupational Health and Safety management system. It also holds FSC Chain of Custody, Recycled Claimed Standard, SA8000 and STANDARD 100 by OEKO-TEX® testing and certification system.

### 1.2 Company scope (sites, locations, etc)

Jilin Chemical Fiber Stock Co., Ltd purchases raw material, manufactures and sales of MMCF.

The headquarters is responsible for development and enforcement of the company sourcing policy and purchasing raw materials for the mil.

Hebei Jigao Chemical Fiber Co. is a subsidiary of Jilin Chemical Fiber group. Located in Hebei province, it produces bamboo viscose fibre. It is not covered under the scope of this audit.

### 1.3 Company sourcing policy

The Company published their *Fibre Procurement Policy for Protecting Forests* being effective on 8<sup>th</sup> August 2019, and committed to

- Conserve Ancient and Endangered Forests and intact forest landscapes.
- Recognize, respect and uphold human rights of communities
- Develop innovative and alternative fibre programme
- Advocate for conservation solutions
- Promote forest certification
- Transparency, traceability and verification
- Reduce greenhouse gas footprint
- Prevent pollutions
- Enhance communication.

## 2. EVALUATION SCOPE

Scope Item	Check all that apply to the Certificate Scope	
Mill Type:	<input checked="" type="checkbox"/> Single	<input type="checkbox"/> Multi-site
Input Material Source:	<input checked="" type="checkbox"/> Listed in supplier CoC form	<input type="checkbox"/> Other suppliers
Majority Invest Group Input:	Approximately 30% Dissolving pulp, 67% cotton linter and 3% bamboo pulp.	

Map of Ancient and Endangered Forests Overlay Completed:	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No Comments: The Company has done overlays for some suppliers, but did not provide map overlay with Ancient & Endangered Forests for all suppliers.
Mill Capacity:	58,000 tons viscose rayon filament yarn /year	
Primary Activity:	Viscose rayon filament yarn	
Outsourcing:	<input type="checkbox"/> FSC-certified subcontractors	<input type="checkbox"/> Non-certified subcontractors
	<input type="checkbox"/> Outsourcing of the complete production process	
	<input type="checkbox"/> High risk subcontractor site(s) included	
	<input checked="" type="checkbox"/> No outsourcing	
Workforce:	Permanent male: 3,133	Permanent female: 1,416
	Contract male: 0	Contract female: 0
	TOTAL:	4,549

Sites included in evaluation	Location
Jilin Chemical Fiber Stock Co., Ltd. Corporate office	No.216, Kunlun Street, ETD Zone, Jilin province, China
Viscose mill (start production in 1964)	No.216, Kunlun Street, ETD Zone, Jilin province, China

### 3. EVALUATION PROCESS

#### 2.1 Audit Team

Auditor name(s)	Qualifications
Gaojun Zhao	Responsible Sourcing Specialist, NEPCo; FSC FM/CoC Lead Auditor and NEPCo LegalSource auditor; Majored in forestry management and has more than 11 years of experience in the fields of Timber Legality Verification, Forest Management and FM/COc certification in China.
Guangxin Wang (Observer)	Responsible Sourcing Specialist, NEPCo;

#### 2.2 Audit Overview

Site(s)	Audit date	Total on-site audit time (Hours)
Corporate Office	24 <sup>th</sup> December 2019	5 hours

Viscose mill	24 <sup>th</sup> December 2019	3 hours
--------------	--------------------------------	---------

**Note:** more details about audit process are provided in a separate audit plan

## 2.3 Description of Overall Audit Process

NEPCon lead auditor shared an audit plan with the Company before the onsite visit. The company profile, supplier list and system documents were sent to the auditor for review before the audit.

On 24<sup>th</sup> December 2019, the audit started with an opening meeting with the presence of top management and the key staff in all departments. The objective and scope of the audit, agenda, conflict of interest (COI) issues, etc were communicated. Also, the management representative gave a brief introduction of the Company and operation activities and the effort made on Canopy sourcing policy.

Following the opening meeting, the auditor interviewed the management team regarding action plan and practises with Canopy policy commitment, including Company structure, Canopy training, purchase policy, supplier management, research of alternative Fibre, environment protection, forest protection, etc.

After interview with management, related documents were reviewed, such as Wood Fibre Sourcing Policy and operational procedures, Annual Volume Summary Data, purchase documents (contracts, invoices, packing list, bill of lading etc.), Risk Assessment Report, Training Plan and records, communication with the suppliers, etc.

Then, the auditor toured the company's mill including the production line and warehouse. where the brand of the pulp and stock were particularly checked through spot check and staff interviews.

In combination with review documents and visit the company's facilities, the auditor interviewed the staff from various departments: sustainability committee, purchase, production, warehouse, EHS, R&D, HR, etc.

The closing meeting was held at the office at 16:00 of 24th December 2019 with the presence of the management. During the meeting the main findings were presented and explained to the Company.

## 4. EVALUATION RESULT

### 4.1 Evaluation Conclusion

#### Positive findings:

The Company has developed a sourcing policy in line with CanopyStyle initiative and communicated this policy with all suppliers. The operating manual was developed by the HQ and shared with the mill.

The Company had several meetings with Canopy to clarify the requirements and provided several training sessions to the staff at different levels. The key managers are aware of the sourcing policy and definition of ancient and endangered forests.

The purchase department has collected the information from all four suppliers and conducted risk assessment. The pulp suppliers list was made publicly on the Company's official website and the Company has agreed to share the risk assessment of suppliers with the Leaders Group.

The Canopy sourcing policy has been communicated to the suppliers and has been included in the purchase contract of one of its suppliers. The Company has created an action plan to increase gradually the quantity of FSC certified wood pulp and plans to purchase the pulp from the suppliers engaging in forest protection program preferentially. The company donated to local nature reserve to protect the intact forest.

The Company is researching new technology to use the alternative fiber such as recycled cotton fiber, in collaboration with the supplier. Also, the Company is trying to reduce the GHG emission and save the water & energy by technology innovation.

After the audit, and before the finalization of this report, Jilin discontinued sourcing from 2 suppliers (Borregard and Cosmo) that presented potential risk. This immediate action is a strong demonstration of commitment to comply with the CanopyStyle commitments and audit framework criteria. The actions taken post audit mitigate the risks highlighted in the areas for improvement below, and are to be verified at the next annual audit.

**Areas for improvement:**

The Company made significant attempts to collect information from their suppliers on forest or plantation of origin, but often received only enough information to locate the dissolving pulp mill location. Therefore, sometimes origin of material is only known at a country level, creating a broad sourcing area with potential overlap with ancient and endangered forests. More information on forest of origin is needed to understand if these mills are in fact sourcing from ancient and endangered forests or controversial sources.

Prior to the audit, Canopy shared an advice note<sup>4</sup> (effective 1 June 2019) that introduces a new tool (Dissolving Pulp Mill Classification) to be used in addition to the Forest Mapper when conducting risk assessments for sourcing from ancient and endangered forests. The new tool outlines commonly used dissolving pulp mills and a determination of risk considering priority ancient and endangered forests. In comparing the company risk assessment with the new Canopy dissolving pulp classification tool, there are differing risk results:

Supplier	Company Risk Assessment	Canopy Dissolving Pulp Classification
Domsjo	Low risk	No sourcing issues identified based on current information and/or CanopyStyle audit.
AustroCel Hallein	Low risk	No sourcing issues identified based on current information and/or CanopyStyle audit.
Borregaard (suspended purchasing on 30 April 2020)	Low risk	Further sourcing information and/or auditing required.
Cosmo (suspended purchasing on 30 April 2020)	Low risk	In proximity to coastal temperate rainforests and Intact Forest Landscapes. Further sourcing information and/or auditing required.

<sup>4</sup> <https://canopyplanet.org/resources/canopystyleaudit/canopystyle-audit-guidelines/>

The Company has made great efforts to conduct a risk assessment on sourcing from ancient and endangered sources, and more assessment is needed for controversial sources. The Company sources from many forest management units that are plantations, and information has been requested on the establishment date of these plantations, but not much information has been received.

The Company has begun developing and implementing many of the required procedures required by this framework, however full implementation is not yet completed.

## 4.2 Summary of findings

Rating	Color
Not Applicable	Grey
Commitment Met	Green
Commitment in Progress	Yellow
Commitment Not Met	Red
Insufficient Information Available	Grey

Key Commitment	Performance Indicators	Rating
1. The MMCF producer has publicly communicated and is implementing the Invest Group Sourcing/Forest Policy	1.1 Senior executive and key managers make a publicly available commitment to full implementation of the forest sourcing policy **	Commitment Met
	1.2 The MMCF producer has developed standard operating procedures (SOP) required to implement the Policy with input from and agreement of civil society stakeholders. **	Commitment in Progress
	1.3 The MMCF producer has assigned personnel with responsibility for Policy implementation. **	Commitment Met
	1.4 The MMCF producer has developed capacity and Companyal structure to implement the Policy.	Commitment Met
	1.5 The MMCF producer has communicated its commitment to implement its Policy to all its suppliers. **	Commitment Met
	1.6 The MMCF producer has included requirements to implement the Policy in agreements/contracts with current and future suppliers. **	Commitment Met
	1.7 The MMCF producer has developed, and is implementing a system to monitor supplier conformance with the Policy. **	Commitment in Progress
	1.8 The MMCF producer has put in place a transparent/public grievance procedure with the input and agreement of civil society stakeholders	Commitment in Progress
	1.9 The MMCF producer has developed, and is implementing, an action plan that address any identified non-conformance and grievance received. **	N/A
	1.10 Key managers at each production site are aware of the Policy and demonstrate a similar commitment to implement it. **	Commitment Met

	1.11 Each production site managers have developed procedures to implement the Policy, when relevant. **	Commitment Met
2. The MMCF producer only sources raw material from suppliers that are transparent, traceable and are in conformance with the policy	2.1 An assessment of the MMCF producer supply chain has been completed globally and shared with Leaders Group. This assessment will be updated every year and shared with the Leaders Group. **	Commitment in Progress
	2.2 The assessment identifies all suppliers in the chain that supply the MMCF mills, beginning at the forest or plantation of origin.	Commitment in Progress
	2.3 A risk assessment has been done with the information and shared with Leaders Group.	Commitment in Progress
	2.4 This supply chain assessment has been presented to the Leaders Group and stakeholders, allowing for questions to be answered and information gaps to be highlighted.	Commitment Met
	2.5 The MMCF producer publishes its suppliers publicly, or, in the absence of such transparency, is providing its customers with a robust track and trace system that can be used throughout the supply chain up to clothing and textile retailers.	Commitment Met
3. No conversion of natural forest to plantations	3.1 The initial date of the plantation development has been documented and sourcing only occurs in areas identified pre 1994, or post 1994 with a supporting valid FSC certificate. **	Commitment In Progress
4. Since the signature of the Policy, all sourcing from ancient and endangered forests and other controversial sources have been eliminated	4.1 The MMCF producer has adopted clear definitions for the terms included in their Policy, such as "ancient & endangered forests", "intact forest", "natural forest", "endangered species", "controversial sources", "high conservation value", "high carbon area", "peatlands", etc. that are consistent with this document and the forest sourcing policy template. **	Commitment Met
	4.2 All areas meeting the definition of "ancient and endangered forests" have been identified and mapped and suppliers and fibre that have a high risk of being considered controversial sources have been identified and shared with Leaders Group. **	Commitment in Progress
	4.3 Any raw materials in the MMCF producer's supply chain originating from ancient and endangered forests or other controversial sources, and acquired before the Policy was adopted by the company, such as stocks in log yards, will be documented, identified accordingly and utilised by the mills. **	N/A
	4.4 The MMCF producer is aware of all relevant local, national and international laws and there is no evidence of non-compliance, with local, national or international laws. **	Commitment Met
	4.5 The commitment not to source from ancient and endangered forests and other controversial sources is verified. **	Commitment in Progress
5. If suppliers contravene these criteria, the MMCF producer will first engage them to change practices and then re-evaluate its relationship with them	5.1 All MMCF producers' suppliers are identified and the forest of origin is known. **	Commitment in Progress
	5.2 The MMCF producer has developed procedures for engaging with suppliers, up to withdrawing from purchase and other agreements in situations where non-conformance is found. **  (Note: This means potential legal and contractual issues associated with withdrawal are identified and addressed.)	Commitment Met

	5.3 The MMCF producer has documented withdrawals from supply agreements where non-conformance has been found. **	Commitment Met
6. The MMCF producer welcomes interested stakeholders and Leaders Group observers to verify the implementation.	6.1 Leaders Group and other stakeholder observers are invited to participate freely and to report observations during this verification process. **	Commitment in Progress
	6.2 Large scale scientifically based conservation planning, High Conservation Value assessments, and/or High Carbon Value assessment, identifying areas for protection, has been completed, based on best available science, by a credible third party, and made public. **	N/A
	6.3 If sourcing from controversial areas, with records of conflict and human rights violation, an assessment that includes participatory mapping of lands owned or claimed by indigenous and local communities, identification of areas for protection, areas for conflict resolution and remedy of past harms that involve affected parties, their chosen advisors and relevant stakeholders, have been completed by a credible and mutually agreed third party and made public. **	N/A
	6.4 The MMCF producer has developed a management plan that identifies measures to protect areas identified in large scale scientifically based conservation planning, HCV and HCS assessments with the Free, Prior and Informed Consent of indigenous and local communities whose land or land claims are impacted and with input from credible ENGOs. **	N/A
	6.5 The MMCF producer has developed and implemented a time-bound action plan to actively seek the legal protection of these areas with final land-use decision-makers in a way that meets principles of Free Prior and Informed Consent. **	N/A
7. The MMCF producer shall recognize, respect and uphold human rights and the rights of communities and workers affected by the operations of their supply chain and affiliated companies	7.1 The MMCF producer has developed and requires its suppliers to adopt a similar policy, systems and procedures to implement Free, Prior and Informed Consent of indigenous people and local communities. **	Commitment in Progress
	7.2 Suppliers document how they conform with the MMCF producer's commitment to recognize and respect human rights, community rights, First Nations rights and rights of workers. **	Commitment in Progress
	7.3 The MMCF producer and its suppliers show responsible handling of complaints and resolution of conflicts in a transparent and accountable manner that is mutually agreed by the parties and includes relevant stakeholders.	Commitment Met
	7.4 The MMCF producer and its suppliers have developed internal capacity and Companyal structure to recognize and respect the rights of its workers	Commitment in Progress
	7.5 The MMCF producer has developed procedures to ensure its Tier one suppliers uphold the International Labour Company (ILO) Declaration on Fundamental Principles and Rights at Work and will require the equivalent of their own suppliers.	Commitment Met
	7.6 Recognition and respect for human rights is demonstrated. There is no evidence of avoiding or failing to resolve social conflicts and remedy past or current human rights violations. **	Commitment in Progress
8. Development of Innovative and Alternative Invest Group	8.1 The MMCF producer has developed and implemented an internal action plan to collaborate	Commitment In Progress

	with innovative companies and suppliers to explore and encourage the development of new alternative Invest Group sources that reduce environmental and social impacts, such as agricultural residues and recycled Invest Groups. **	
	8.2 The research and development phase for the production of pulp and cellulosic Invest Group made from alternative Invest Group sources has been successfully completed and the MMCF producer is entering a commercial scale phase.	Commitment in Progress
9. Voluntary advocacy for conservation solutions	9.1 The MMCF producer has a track record of participating in events that support collaborative and visionary system solutions that aim protect remaining ancient and endangered forests. **	Commitment in Progress
	9.2 When prompted, the MMCF producer uses its brand influence or purchasing influence to positively impact conservation and development solutions that have the Free, Prior and Informed Consent of affected indigenous and local communities. **	Commitment in Progress
	9.3 The MMCF producer publicly supports science-based international and national target(s) and programs for preserving designated protected and conservation areas that have the Free, Prior and Informed Consent of affected indigenous and local communities.	Commitment in Progress
	9.4 The MMCF producer is developing and implementing specific programs to increase the endangered species population and the maintenance of their habitat through time, with government and/or ENGO programs. **	N/A
10. Responsible forest management	10.1 The MMCF producer has defined criteria for responsible forest management, gives a preference for FSC certification and has developed and implemented an action plan to increase FSC intake. **	Commitment in Progress
11. Reduction of Greenhouse Gas (GHG) Footprint by recognizing the importance of forests and peatlands as carbon storehouses	11.1 The MMCF producer has developed and implemented procedures to evaluate their suppliers' performance in reducing GHG.	Commitment in Progress
	11.2 The MMCF producer can document giving preference to suppliers that have identified and adopted management measures to protect forested peatland at the concession and landscape level (peat dome) and that have identified, withdrawn from and restored peatlands and their hydrology. **	Commitment in Progress
12. Pollution Prevention	12.1 * This verification process <u>will not</u> address the pulp and viscose manufacturing process which can lead to air and water emissions that impact overall environmental quality.  However, it will be noted when MMCF producers invest in and use the cleanest dissolving pulp and viscose manufacturing technology (i.e. lyocell process). The indicators will be the number of mills using such cleaner processes and the % of overall volumes produced with such technology. This information will be treated and framed as additional bonus performance by the MMCF producer.	Commitment in Progress

### 4.3 Volume Summaries

Reporting period: from July 2018 to November 2019

Category	Explanation	Purchase Volume (tons)	% Overall
FSC Controlled Wood	Material received with an FSC Controlled Wood claim (either from an FM or COC certified company)	0	0%
Controlled material	Noncertified material controlled by the company's FSC Due Diligence System	0	0%
FSC Mix	Material received with an FSC Mix Credit or FSC Mix % claim from an FSC CoC certified company	0	0%
FSC 100%	Material received with an FSC 100% claim from an FSC certified company (FM or COC).	0	0%
Non-FSC	Material received with no FSC claim.	<b>40,309 tons</b>	<b>100%</b>
PEFC	Material received with an PEFC claim. Note materials can be received with both a PEFC and FSC claim (no double counting)	0	0%

Notes on certified sourcing:

- In 2017 the company purchased 494tons FSC Mix Credit pulp.
- At the time of this audit, the company placed purchase order of 1,000 tons certified pulp from Domsjo.

## Appendix A: STANDARD CHECKLIST (CanopyStyle Verification Framework – Corporate Sourcing)

### 1. Evaluation of Site: Jilin Chemical Fiber Stock Co., Ltd. Corporate office

<b>Primary Responsible Person:</b> (Responsible for control system at site(s))	Mr. Li Kui, Vice GM & head of Sustainable development committee
<b>Auditor(s):</b>	Gaojun Zhao, Guangxin Wang
<b>People Interviewed, Titles:</b>	<ul style="list-style-type: none"> <li>- Mr Wang Lihe, Sustainable development office director</li> <li>- Ms. Kong Yuying, Production manager;</li> <li>- Ms. Xiao Minghui, deputy manager of purchase;</li> <li>- Ms Ma Chunling, warehouse;</li> <li>- Sun He, Sales;</li> <li>- Li Honglei, EHS supervisor;</li> <li>- Ms. Wang Yang, HR</li> </ul>
<b>Brief Overview of Audit Process for this Location:</b>	<i>Please refer to Section 2.3 above for Description of Overall Audit Process.</i>
<b>Comments:</b> Jilin Chemical Fiber Stock Co., Ltd. Corporate Office is responsible for development and enforcement of the company sourcing policy and purchasing raw materials for the mill.	

### 2. Standard Checklist

1. The MMCF producer has publicly communicated and is implementing their Fibre Sourcing/Forest Policy	
Indicators	Findings
1.1 Senior executive and key managers make a publicly available commitment to full implementation of the forest sourcing policy. **	<p><b>Conformance with Indicator:</b></p> <p><input type="checkbox"/> Not Applicable</p> <p><input checked="" type="checkbox"/> Commitment Met</p> <p><input type="checkbox"/> Commitment in Progress</p> <p><input type="checkbox"/> Commitment Not Met</p> <p><input type="checkbox"/> Insufficient Information Available</p> <p><b>Description of the finding:</b></p> <p>The Company made a public commitment to promote sustainable forest management and conserve ancient and endangered forests (effective in 21<sup>th</sup> Nov. 2019). The policy was posted on the website:  <a href="http://www.jlhxjt.com/xwzx.asp?cid=3&amp;sid=1&amp;d=2019112114522648616">http://www.jlhxjt.com/xwzx.asp?cid=3&amp;sid=1&amp;d=2019112114522648616</a></p> <p>The interview of the deputy general manager and the manager of Sustainability department confirmed senior management team were well informed the definition of ancient and endangered forests and other controversial sources and were fully committed to implement Canopy purchase policy.</p>

<p>1.2 The MMCF producer has developed standard operating procedures (SOP) required to implement the Policy with input from and agreement of civil society stakeholders.**</p>	<p><b>Conformance with Indicator:</b></p> <p><input type="checkbox"/> Not Applicable  <input type="checkbox"/> Commitment Met  <input checked="" type="checkbox"/> Commitment in Progress  <input type="checkbox"/> Commitment Not Met  <input type="checkbox"/> Insufficient Information Available</p> <p><b>Description of the finding:</b></p> <p>The Company has developed the operating manual for the implementation of Canopy sourcing policy.</p> <p>The company asks for acknowledgement with the sourcing policy from the suppliers. The suppliers are required to sign the supply agreement of dissolving pulp stipulating the Canopy sourcing policy must be respected. The supplier with non-compliance must take actions within deadline (6 months). If the non-conformity is not solved by the supplier within the deadline, the company will stop purchase. However, at the time of this audit, the standard operating procedures (SOP) was not consulted with civil society stakeholders.</p>
<p>1.3 The MMCF producer has assigned personnel with responsibility for Policy implementation.**</p>	<p><b>Conformance with Indicator:</b></p> <p><input type="checkbox"/> Not Applicable  <input checked="" type="checkbox"/> Commitment Met  <input type="checkbox"/> Commitment in Progress  <input type="checkbox"/> Commitment Not Met  <input type="checkbox"/> Insufficient Information Available</p> <p><b>Description of the finding:</b></p> <p>The deputy manager of the company, Mr. Li Kui, (also the manager of Sustainable development committee) has the overall responsibility for sourcing policy implementation.</p> <p>The purchasing department is assigned and responsible for the implementation of the policy. The responsibility of implementing the policy is included in Company structure and responsibility division. The interview of the purchase manager, responsible for fibre sourcing overseas, confirmed she's fully aware the policy and responsibilities. Other departments are also involved, such as HR, admin office.</p>
<p>1.4 The MMCF producer has developed capacity and Company structure to implement the Policy.</p>	<p><b>Conformance with Indicator:</b></p> <p><input type="checkbox"/> Not Applicable  <input checked="" type="checkbox"/> Commitment Met  <input type="checkbox"/> Commitment in Progress  <input type="checkbox"/> Commitment Not Met  <input type="checkbox"/> Insufficient Information Available</p>

	<p><b>Description of the finding:</b></p> <p>The Company organization structure for implementation of policy has been shared with the auditor.</p> <p>The Sustainable development committee was established in November 2019, led by the vice GM with the staff members from Purchase, Sales, Logistic, production, EHS, Equipment &amp; Energy, HR.</p> <p>Interviews found all relevant staff were aware of Canopy policy and their responsibility.</p>
<p>1.5 The MMCF producer has communicated its commitment to implement its Policy to all its suppliers.**</p>	<p><b>Conformance with Indicator:</b></p> <p><input type="checkbox"/> Not Applicable</p> <p><input checked="" type="checkbox"/> Commitment Met</p> <p><input type="checkbox"/> Commitment in Progress</p> <p><input type="checkbox"/> Commitment Not Met</p> <p><input type="checkbox"/> Insufficient Information Available</p> <p><b>Description of the finding:</b></p> <p>The company notified all suppliers the commitments via email &amp; Wechat (Well-known message app in China) in March 2019 (prior to signature by top management).</p> <p>Cosmo signed the commitment letter and supply agreement regarding Canopy sourcing policy and provided Sustainable Forestry and Fiber Procurement Policy.</p>  <p><b>Sustainable Forestry and Fiber Procurement Policy</b></p> <p><b>Sustainable Forestry Commitment</b> Cosmo is committed to sustainable forestry practices and the responsible procurement of wood fiber through practices which promote healthy and productive forests for future generations. Sustainable forestry means managing forests today in a way that ensures there will be abundant, healthy and diverse forests in the future.</p> <p>Our commitment to sustainable forestry and responsible wood fiber procurement is a natural extension of our overarching social and environmental stewardship ethic. That stewardship ethic starts at our facility, where water and air quality are of paramount importance. Our commitment extends much farther—to our community, to the forests that produce our wood fiber, and beyond to the broader environment.</p> <p>Cosmo takes steps to assure our customers and communities that we are responsibly sourcing fiber for our products. To provide that assurance, we are committed to obtaining and maintaining certifications to the Programme for the Endorsement of Forest Certification™ (PEFC) and the Forest Stewardship Council™ (FSC).</p> <p>Cosmo supports and promotes sustainable land stewardship practices that integrate the growing and harvesting of trees with the protection and conservation of: air and water quality, soil, biological diversity, wildlife and aquatic habitats, recreational and aesthetic properties, and forests with high conservation value. We operate under the premise that responsible environmental behavior and sound business decisions can co-exist to the benefit of communities, landowners, logging professionals, business owners, customers, and the environment, today and for future generations.</p> <p>The supplier Ekman (Domsjo pulp) has signed a commitment letter and the pulp mill presented the sourcing policy.</p>

	<p><b>Domsjö Fiber</b>  <b>Fibre sourcing policy</b></p> <p>Ansvarig utgivare: Lars Samuelsson      Datum: 2019-10-01      Sida: 1(1)</p> <p><b>Fibre sourcing policy Domsjö Fiber</b></p> <p>Domsjö Fiber AB imposes stringent requirements on the bio raw material purchasing process.</p> <p><b>Basic requirements</b> The current laws and regulations applied by respective countries of origin determine the basic level of environmental requirements.</p> <p>Domsjö Fiber AB does <b>not</b> purchase bio raw material that:</p> <ul style="list-style-type: none"> <li>• has been harvested illegally</li> <li>• derives from genetically modified trees or crops</li> <li>• comes from areas where common law and civil rights are actively impeded</li> <li>• comes from uncertified High Conservation Value Forests</li> <li>• includes wood harvested from plantations established after 1994 through conversion of natural forests or converted to non-forest use</li> <li>• comes from protected areas, in Sweden known as "key biotopes"</li> <li>• has been harvested in ancient and/or endangered forests, nor endangered species habitats.</li> </ul> <p>Dispensation may be granted from such restrictions, where the bio raw material derives from harvesting operations conducted as part of a biotope-conservation programme, in compliance with the official recommendations of the appropriate forestry/agriculture authority.</p> <p><b>Control of origin</b> Domsjö Fiber AB strives to gain as complete a picture as possible of the original source of the bio raw material. Where there is reason to suspect that the bio raw material on offer may come from forests or agricultural land of the type described above, Domsjö Fiber AB shall seek to clarify the situation by contacting the appropriate authorities or by requiring a declaration of origin from the vendor/harvesting company. Should the declaration of origin submitted by a vendor be incorrect, Domsjö Fiber AB reserves the right to terminate the business agreement, whereby the vendor waives all rights to compensation.</p>
<p>1.6 The MMCF producer has included requirements to implement the Policy in agreements/contracts with current and future suppliers. **</p>	<p><b>Conformance with Indicator:</b></p> <p><input type="checkbox"/> Not Applicable</p> <p><input checked="" type="checkbox"/> Commitment Met</p> <p><input type="checkbox"/> Commitment in Progress</p> <p><input type="checkbox"/> Commitment Not Met</p> <p><input type="checkbox"/> Insufficient Information Available</p> <p><b>Description of the finding:</b></p> <p>According to the sourcing operating manual, the purchase contract will include this requirement "The seller has already read and understood the buyer's sourcing policy, and respects the policy, and supports Conservation of Ancient &amp; Endangered Forests and Intact Forest Landscapes, Reduction of Greenhouse Gas Footprint.</p> <p>The seller upholds the international labour organization (ILO) declaration on fundamental principles and rights at work and will require the equivalent of their own suppliers. ", which is also confirmed by interview with the purchase department.</p> <p>The requirements to implement the policy have been included in the contract with the supplier Ekman (Domsjo pulp).</p> <p>However, at the time of this audit, the requirements are not included in the contract with other suppliers (Borregaard AS, AustroCel Hallein GmbH &amp; Cosmo), because there was no new contract with these suppliers since the implementation of Canopy sourcing policy.</p> <p><b>Updated based on extra evidences 8<sup>th</sup> May 2020:</b></p>

The requirements has been included in the contract with the pulp supplier - AustroCel Hallein GmbH (see screenshot below). Two contacts dated on 3<sup>rd</sup> Jan. and 4<sup>th</sup> May 2020 are provided.

The seller has already read and understood the buyer's purchase policy, and respects the policy, and supports Conservation of Ancient & Endangered Forests and Intact Forest Landscapes, Reduction of Greenhouse Gas Footprint.

卖方已审阅买方的森林政策采购政策，并尊重该政策，支持保护原始濒危森林和森林景观完整、减少温室气体足迹。

The seller uphold the international labour organization (ILO) declaration on fundamental principles and rights at work, and will require the equivalent of their own suppliers.

卖方遵守国际劳工组织有关工人权利和工作场所基本原则的声明，并对其供应商提出同样的要求。

Effectiveness: This Sales Confirmation becomes effective immediately upon signature by the Buyer and the Seller.

Jilin Chemical Fiber suspended the purchase from Borregaard and Cosmo with potential risk because of lack of origin information. The statement on suspending purchasing is available on the company's website:  
<http://www.jlhxjt.com/xwzx.asp?cid=13&id=2020050211022257981>.

声明

STATEMENT

吉林化纤股份有限公司于2019年12月份接受了canopy审查，评审专家根据COSMO SPECIALTY FIBERS, INC.及BORREGAARD AS提供的数据制造证据，依据forest-mapper分析，认为COSMO SPECIALTY FIBERS, INC.及BORREGAARD AS供应链存在潜在风险，向吉林化纤股份有限公司提出警示。

Canopy audit for Jilin Chemical Fiber Stock Co., Ltd. was carried out in December 2019. After checking evidence provided by pulp manufacturers and analysis based on forest-mapper, the review experts concluded that:

\* COSMO SPECIALTY FIBERS, INC. and BORREGAARD AS was considered insufficient information and evidence provided, there are risks in the supply chain.

\* Remind Jilin Chemical Fiber Stock Co., Ltd. about the risk warning.

针对此种情况，即日起吉林化纤股份有限公司将暂时终止与COSMO SPECIALTY FIBERS, INC.及BORREGAARD AS采购合作。

要求COSMO SPECIALTY FIBERS, INC.及BORREGAARD AS采取整改措施并提供证据，也希望COSMO SPECIALTY FIBERS, INC.及BORREGAARD AS能与canopy保持联系，消除潜在风险。吉林化纤股份有限公司及canopy将根据审查结果，再考虑恢复合作关系。

Consider the situation, Jilin Chemical Fiber Stock Co., Ltd. will temporarily suspend to purchase pulp product from COSMO SPECIALTY FIBERS, INC. and BORREGAARD AS. And request COSMO SPECIALTY FIBERS, INC. and BORREGAARD AS to take measures to improve the situation and provide us evidence for improving soon. We also hope that COSMO SPECIALTY FIBERS, INC. and BORREGAARD AS can contact Canopy directly and eliminate potential risks. Canopy and Jilin Chemical Fiber Stock Co., Ltd. will review the evidence and consider whether resume cooperation on pulp business according to improvement result.

吉林化纤股份有限公司特此声明

Jilin Chemical Fibre Stock Co., Ltd hereby declares

  
JILIN CHEMICAL FIBRE STOCK CO., LTD.  
中国吉林化纤集团有限公司  
Commitment to Sustainable Development  
2020年04月30日  
April 30, 2020

1.7 The MMCF producer has developed, and is implementing a system to monitor supplier conformance with the Policy. \*\*

Conformance with Indicator:

- Not Applicable
- Commitment Met
- Commitment in Progress
- Commitment Not Met
- Insufficient Information Available

Description of the finding:

	<p>The company developed the supplier performance monitoring procedure, including monitoring frequency and month, monitoring method (documents review and onsite visit if necessary), the evidences to be checked, etc.</p> <p>Based on the procedure, the supplier must comply with Canopy requirement and with the low risk. The performance of active suppliers will be monitored annually.</p> <p>The identified non-compliance will be announced to the suppliers and must be address within 6 months.</p> <p>However, since the commitment date of the policy, the company has not conducted annual monitoring to the suppliers in CanopyStyle framework requirements. This will be evaluated in next audit.</p>
<p>1.8 The MMCF producer has put in place a transparent/public grievance procedure with the input and agreement of civil society stakeholders.</p>	<p><b>Conformance with Indicator:</b></p> <p><input type="checkbox"/> Not Applicable  <input type="checkbox"/> Commitment Met  <input checked="" type="checkbox"/> Commitment in Progress  <input type="checkbox"/> Commitment Not Met  <input type="checkbox"/> Insufficient Information Available</p> <p><b>Description of the finding:</b>  The company established the grievance procedure and made publicly the complaint channel on the website.  <a href="http://www.jlhxit.com/xwzx.asp?cid=3&amp;sid=1&amp;id=2019112114522648616">http://www.jlhxit.com/xwzx.asp?cid=3&amp;sid=1&amp;id=2019112114522648616</a>  However, no evidence showed that the grievance procedure has taken the input and agreement of civil society stakeholders into account.</p>
<p>1.9 The MMCF producer has developed, and is implementing, an action plan that address any identified non-conformance and grievance received.**</p>	<p><b>Conformance with Indicator:</b></p> <p><input checked="" type="checkbox"/> Not Applicable  <input type="checkbox"/> Commitment Met  <input type="checkbox"/> Commitment in Progress  <input type="checkbox"/> Commitment Not Met  <input type="checkbox"/> Insufficient Information Available</p> <p><b>Description of the finding:</b>  No complaints have been received, and no non-conformance has yet been recognized as this is the first CanopyStyle audit.</p>
<p>1.10 Key managers at each production site are aware of the Policy and demonstrate a similar commitment to implement it.**</p>	<p><b>Conformance with Indicator:</b></p> <p><input type="checkbox"/> Not Applicable  <input checked="" type="checkbox"/> Commitment Met  <input type="checkbox"/> Commitment in Progress  <input type="checkbox"/> Commitment Not Met  <input type="checkbox"/> Insufficient Information Available</p> <p><b>Description of the finding:</b></p>

	<p>The Company organized several training sessions on the policy and Canopy requirements in August and September 2019 and also consulted the Canopy for three times via conference meetings.</p> <p>The interviews to relevant staff in corporate office and mill demonstrated they are fully aware the policy and were able to explain to the auditor how they should implement the policy.</p>
<p>1.11 Each production site manager has developed procedures to implement the Policy, when relevant. **</p>	<p><b>Conformance with Indicator:</b></p> <p><input type="checkbox"/> Not Applicable  <input checked="" type="checkbox"/> Commitment Met  <input type="checkbox"/> Commitment in Progress  <input type="checkbox"/> Commitment Not Met  <input type="checkbox"/> Insufficient Information Available</p> <p><b>Description of the finding:</b>  Yes, the SOP developed by the group headquarters was shared with the viscose mill.</p>
<p><b>Summary:</b> The Company has developed a fibre sourcing policy with supporting procedures for implementation of Canopy requirements and conducted training. The sourcing policy is made available on the company's website and communicated to the dissolving pulp suppliers. The sustainable development committee was established to ensure the implementation. However, these procedures developed have not been consulted with stakeholders.</p> <p>According to the sourcing operating manual, the purchase contract will include this requirement, which is also confirmed by interview with the purchase department. However, at the time of this audit, the requirements are not included in the contract with some suppliers.</p> <p>In addition, since the commitment date of the policy, the company has not conducted annual monitoring to the suppliers in CanopyStyle framework requirements. This will be evaluated in next audit.</p> <p>Updated 8<sup>th</sup> May:  The requirements have been included in the contracts with active suppliers – Domsjo and Hallein.</p>	

2. The MMCF producer only sources raw material from suppliers that are transparent, traceable and are in conformance with the policy	
Indicators	Findings
<p>2.1 An assessment of the MMCF producer supply chain has been completed globally and shared with Leaders Group. This assessment will be updated every year and shared with the Leaders Group. **</p>	<p><b>Conformance with Indicator:</b></p> <p><input type="checkbox"/> Not Applicable  <input type="checkbox"/> Commitment Met  <input checked="" type="checkbox"/> Commitment in Progress  <input type="checkbox"/> Commitment Not Met  <input type="checkbox"/> Insufficient Information Available</p> <p><b>Description of the finding:</b>  The Company provided a list of dissolving pulp suppliers at the time of this audit.</p> <p>The Company has assessed all supply chain partners to the sourcing policy and the vice general manager confirmed that they are willing to share with Leaders group.</p>

	<p>All suppliers are concluded by the Company as low risk, including Borregaard, AustroCel Hallein, Cosmo and Domsjo.</p> <p>Prior to the audit, Canopy shared an advice note (Classification of dissolving pulp mills) that assess commonly used dissolving pulp manufacturers. AustroCel Hallein and Domsjo were determined as 'no sourcing issues identified based on current information and/or CanopyStyle audit.'</p> <p>However, another 2 suppliers (Borregaard and Cosmo) have differing ratings between the Company and Canopy's classification, due to the need for more information on forest of origin location. For the 2 suppliers, the Company collected only FSC-COC certificates and sourcing policy of them without forest origin or other supporting evidence.</p> <p>In addition, the company's assessment did not take care of the risk of sourcing from controversial sources, such as source linked to illegal activity, Violations of the rights of indigenous peoples, local communities and workers, etc.</p> <p><b>Updated based on extra evidences 8<sup>th</sup> May 2020:</b></p> <p>Jilin Chemical Fiber has suspended the purchase from Borregaard and Cosmo with potential risk because of lack of origin information. The statement on suspending purchasing is available on the company's website: <a href="http://www.jlhxt.com/xwzx.asp?cid=13&amp;id=2020050211022257981">http://www.jlhxt.com/xwzx.asp?cid=13&amp;id=2020050211022257981</a>.</p> <p>The two suppliers were requested to take measures to provide additional evidence soon. Jilin Chemical Fiber Stock Co., Ltd. will review the evidence and consider whether resume cooperation on pulp business according to improvement result.</p>
<p>2.2 The assessment identifies all suppliers in the chain beginning at the forest or plantation of origin, that supply the MMCF mills.</p>	<p><b>Conformance with Indicator:</b></p> <p><input type="checkbox"/> Not Applicable  <input type="checkbox"/> Commitment Met  <input checked="" type="checkbox"/> Commitment in Progress  <input type="checkbox"/> Commitment Not Met  <input type="checkbox"/> Insufficient Information Available</p> <p><b>Description of the finding:</b></p> <p>The Company's dissolving pulp supplier list was provided and shared. All dissolving pulp mills are known.</p> <p>However, the forest management units are unknown. The suppliers Borregaard and Cosmo did not provide the information of the forest or plantation of origin information.</p>

<p>2.3 A risk assessment has been done with the information and shared with Leaders Group.</p>	<p><b>Conformance with Indicator:</b></p> <p><input type="checkbox"/> Not Applicable  <input type="checkbox"/> Commitment Met  <input checked="" type="checkbox"/> Commitment in Progress  <input type="checkbox"/> Commitment Not Met  <input type="checkbox"/> Insufficient Information Available</p> <p><b>Description of the finding:</b>  The risk assessment was conducted for all 4 suppliers by the company and shared with LG.</p> <p>Canopy published an advice note that assess commonly used dissolving pulp manufacturers. The 2 suppliers (Borregaard and Cosmo) have differing ratings between the Company risk assessment and Canopy's dissolving pulp classification, due to the need for more information on forest of origin location. For the 2 suppliers, the Company collected only FSC-COC certificates and sourcing policy of them without forest origin or other supporting evidence.</p> <p>In addition, as noted in finding 2.1, the assessment did not fully take care of the risk of sourcing from controversial sources.</p>
<p>2.4 This supply chain assessment has been presented to the Leaders Group and stakeholders, allowing for questions to be answered and information gaps to be highlighted.</p>	<p><b>Conformance with Indicator:</b></p> <p><input type="checkbox"/> Not Applicable  <input checked="" type="checkbox"/> Commitment Met  <input type="checkbox"/> Commitment in Progress  <input type="checkbox"/> Commitment Not Met  <input type="checkbox"/> Insufficient Information Available</p> <p><b>Description of the finding:</b>  The supply chain assessment has presented to Canopy with permission to share with the Leaders group for comments.</p> <p>More information was required from the two suppliers with potential risk – Cosmo &amp; Borregaards and the company did so, and is currently in the process of acquiring additional information.</p>
<p>2.5 The MMCF producer publishes its suppliers publicly, or, in the absence of such transparency, is providing its customers with a robust track and trace system that can be used throughout the supply chain up to clothing and textiles retailers.</p>	<p><b>Conformance with Indicator:</b></p> <p><input type="checkbox"/> Not Applicable  <input checked="" type="checkbox"/> Commitment Met  <input type="checkbox"/> Commitment in Progress  <input type="checkbox"/> Commitment Not Met  <input type="checkbox"/> Insufficient Information Available</p> <p><b>Description of the finding:</b>  On 21<sup>st</sup> Nov. 2019, the Company has published its suppliers on website:  <a href="http://www.jlhxjt.com/xwzx.asp?cid=3&amp;sid=1&amp;id=2019112115113242997">http://www.jlhxjt.com/xwzx.asp?cid=3&amp;sid=1&amp;id=2019112115113242997</a></p>

	<p>The following suppliers has been used in 2019:</p> <ul style="list-style-type: none"> <li>- BORREGAARD AS, from Norway</li> <li>- CENTRAL NATIONAL GOTTESMAN INC, from US</li> <li>- EKMAN &amp; CO AB, from Sweden (DOMSJO)</li> <li>- AUSTROCEL HALLEIN GMBH, from Austria</li> </ul> <p>The company is planning to purchase FSC pulp from Sodra and testing the quality.</p>
<p><b>Summary:</b> The company collected the supply chain information from the suppliers, conducted the risk assessment and published the supplier list on their website. All suppliers are concluded by the Company as low risk, including Borregaard, AustroCel Hallein, Cosmo amd Domsjo. However, 2 suppliers (Borregaard and Cosmo) have differing ratings between the Company risk assessment and Canopy's dissolving pulp tool, due to the need for more information on forest of origin location. Since 30<sup>th</sup> April 2020, the company decided to suspend sourcing from the two suppliers (Borregaard and Cosmo).</p>	

3. No conversion of natural forest to plantations	
Indicators	Findings
<p>3.1 The initial date of the plantation development has been documented and sourcing only occurs in areas identified pre 1994, or post 1994 with a supporting FSC certificate.**</p>	<p><b>Conformance with Indicator:</b></p> <ul style="list-style-type: none"> <li><input type="checkbox"/> Not Applicable</li> <li><input type="checkbox"/> Commitment Met</li> <li><input checked="" type="checkbox"/> Commitment in Progress</li> <li><input type="checkbox"/> Commitment Not Met</li> <li><input type="checkbox"/> Insufficient Information Available</li> </ul> <p><b>Description of the finding:</b></p> <p><b>Cosmo:</b> The plantation used is declared initially established pre 1994.</p> <div data-bbox="805 1265 1428 1534" style="border: 1px solid #ccc; padding: 5px;"> <p>Dear Minghui,</p> <p>Cosmo does not own any planation as all wood material are outsourced. However, they do have an policy o</p> <ol style="list-style-type: none"> <li>1. Planation after 94 – no, our source planation are all pre-1994</li> <li>2. From Endangered forest – no, Cosmo don't source from these areas</li> <li>3. Maps – regret this is one area Cosmo cannot comply. They can indicate the board stroke area but no</li> <li>4. Social Responsibility – please refer to the policy.</li> </ol> </div> <p><b>Borregaard:</b> the statement said it doesn't buy plantation wood and all wood material is from cultivated Natural forest.</p> <p><b>Speciality cellulose - raw material statement</b></p> <p>Borregaard's raw material is spruce pulpwood, predominantly from Norway and Sweden, but small volumes might also be purchased from other neighboring European countries. All wood raw material are purchased from countries that have ratified the EU Timber Regulation.</p> <p>We only buy spruce of the specie Norway spruce (Picea Abies). About 60% of the volume is purchased as round wood, for cutting at our site, while the remaining 40% is bought as sawmill chips from regional sawmills. Out of the total volume of round wood and sawmill chips about 90% are from forests certified according to PEFC or FSC.</p> <p>Borregaard do not buy plantation wood, all wood raw material is from cultivated natural forests.</p> <p><b>AustroCel Hallein:</b> based on Canopy's assessment, there is no interest from an area that would be a plantation established after 1994.</p> <p><b>Domsjo:</b> the information is not provided, based on Canopy's assessment, there is no interest from an</p>

	<p>area that would be a plantation established after 1994.</p> <p>In addition, no supporting documents were provided from the suppliers – Borregaard and Cosmo to confirm the forest type (plantation or natural forest).</p> <p><b>Updated based on extra evidences 8<sup>th</sup> May 2020:</b>          Since 30<sup>th</sup> April 2020, the company decided to suspend sourcing from the two suppliers (Borregaard and Cosmo).</p>
<p><b>Summary:</b> The Company requested suppliers to disclose the forest type and plantation establishment date. However, no information was provided from the supplier Domsjo and no supporting documents were provided from the suppliers – Borregaard and Cosmo to confirm the forest type (plantation or natural forest). Since 30<sup>th</sup> April 2020, the company decided to suspend sourcing from the two suppliers (Borregaard and Cosmo).</p>	

4. Since the signature of the Policy, all sourcing from ancient and endangered forests and other controversial sources have been eliminated	
Indicators	Findings
<p>4.1 The MMCF producer has adopted clear definitions for the terms included in their Policy, such as “ancient &amp; endangered forests,” “intact forest,” “natural forest,” “endangered species,” “controversial sources,” “high conservation value,” “high carbon area,” “peatlands,” etc. that are consistent with this document and the forest sourcing policy template.**</p>	<p><b>Conformance with Indicator:</b></p> <p><input type="checkbox"/> Not Applicable  <input checked="" type="checkbox"/> Commitment Met  <input type="checkbox"/> Commitment in Progress  <input type="checkbox"/> Commitment Not Met  <input type="checkbox"/> Insufficient Information Available</p> <p><b>Description of the finding:</b>          The Company’s policies and procedures include the definitions of ancient &amp; endangered forests, intact forests, and controversial sources as the CanopyStyle framework.</p>
<p>4.2 All areas meeting the definition of “ancient and endangered forests” have been identified and mapped and suppliers and fibre that have a high risk of being considered controversial sources have been identified and shared with Leaders Group.**</p>	<p><b>Conformance with Indicator:</b></p> <p><input type="checkbox"/> Not Applicable  <input type="checkbox"/> Commitment Met  <input checked="" type="checkbox"/> Commitment in Progress  <input type="checkbox"/> Commitment Not Met  <input type="checkbox"/> Insufficient Information Available</p> <p><b>Description of the finding:</b>          The forest map from Domsjo was provided indicating no wood is from the ancient and endangered forest.          For other 3 suppliers (Hallein, Borregaard and Cosmo), it’s unknown because of lack of map or detailed information of origin, the forest origin can be traced at country level only which does not</p>

	<p>allow to identify if the material is sourced from ancient and endangered forests. However, the Canopy dissolving pulp classification tool has Hallein as no sourcing issues identified based on current information and/or CanopyStyle audit.</p> <p>Additionally, all suppliers are assessed as low risk by the company, but Canopy published an advice note that assess commonly used dissolving pulp manufacturers. There are 2 suppliers with differing ratings between the two risk assessments (section 4.1 of the main report), often due to the need for more information on forest of origin location.</p> <p>Further, no evidence showed the company has assessed the risk of sourcing from controversial sources in addition to ancient and endangered forests.</p> <p><b>Updated based on extra evidences 8<sup>th</sup> May 2020:</b></p> <p>Jilin Chemical Fiber suspended the purchase from Borregaard and Cosmo with potential risk because of lack of origin information. The statement on suspending purchasing is available on the company's website: <a href="http://www.jlhxjt.com/xwzx.asp?cid=13&amp;id=2020050211022257981">http://www.jlhxjt.com/xwzx.asp?cid=13&amp;id=2020050211022257981</a>.</p>
<p>4.3 Any raw materials in the MMCF producer's supply chain originating from ancient and endangered forests or other controversial sources, and acquired before the Policy was adopted by the company, such as stocks in log yards, will be documented, identified accordingly and utilised by the mills.**</p>	<p><b>Conformance with Indicator:</b></p> <p><input checked="" type="checkbox"/> Not Applicable  <input type="checkbox"/> Commitment Met  <input type="checkbox"/> Commitment in Progress  <input type="checkbox"/> Commitment Not Met  <input type="checkbox"/> Insufficient Information Available</p> <p><b>Description of the finding:</b></p> <p>The purchase statistic since July 2018 was presented and the following contract was sampling checked:</p> <ul style="list-style-type: none"> <li>- No.01445 from AustroCel from Austria</li> <li>- No.46354259 Domsjo from Sweden;</li> <li>- CP2019-CM08058 from Cosmo from US</li> <li>- JCF20190819 from Borregaards, Norway</li> </ul> <p>No material from such forest are identified by the Company.</p>
<p>4.4 The MMCF producer is aware of all relevant local, national and international laws and there is no evidence of non-compliance, with local, national or international laws. **</p>	<p><b>Conformance with Indicator:</b></p> <p><input type="checkbox"/> Not Applicable  <input checked="" type="checkbox"/> Commitment Met  <input type="checkbox"/> Commitment in Progress  <input type="checkbox"/> Commitment Not Met  <input type="checkbox"/> Insufficient Information Available</p> <p><b>Description of the finding:</b></p>

	<p>The interviews to the management confirmed they were aware all relevant laws and regulations.</p> <p>NEPCon auditor reviewed the legally required documents in China, such as business licence, environment impact assessment, export license, etc.</p> <p>There is no news or information disclosed that the organization is non-compliance with national and international laws. The Company approved the ISO9001:2000 standard quality system, ISO14001:2004 Environment Management System.</p>
<p>4.5 The commitment not to source from ancient and endangered forests and other controversial sources is verified. **</p>	<p><b>Conformance with Indicator:</b></p> <p><input type="checkbox"/> Not Applicable</p> <p><input type="checkbox"/> Commitment Met</p> <p><input checked="" type="checkbox"/> Commitment in Progress</p> <p><input type="checkbox"/> Commitment Not Met</p> <p><input type="checkbox"/> Insufficient Information Available</p> <p><b>Description of the finding:</b></p> <p>The commitment letter of not sourcing from ancient and endangered forests and other controversial sources was signed by two suppliers Ekman (Domsjo pulp trader) and Cosmo.</p> <p>The risk assessment of sourcing from ancient and endangered forests is based on the information/documents collected from the suppliers.</p> <p>Note that most suppliers provide declaration of their sourcing origin and information. For example, the supplier Borregaard only provided a raw material statement and Cosmo provided a procurement policy. This information is a declaration and has not yet been verified by the company.</p> <p><b>Updated based on extra evidences 8<sup>th</sup> May 2020:</b></p> <p>Jilin Chemical Fiber suspended the purchase from Borregaard and Cosmo with potential risk because of lack of origin information. The statement on suspending purchasing is available on the company's website:  <a href="http://www.jlhxjt.com/xwzx.asp?cid=13&amp;id=2020050211022257981">http://www.jlhxjt.com/xwzx.asp?cid=13&amp;id=2020050211022257981</a>.</p> <p>Sourcing is to be verified at the next annual audit to confirm suspension of purchases.</p>
<p><b>Summary:</b> The MMCF producer has adopted clear definitions for the terms included in their Policy. The forest map from Domsjo was provided indicating no wood is from the ancient and endangered forest. For other 2 suppliers (Borregaard and Cosmo), it's unknown because of lack of map or detailed information of origin, the forest origin can be traced at country level only which does not allow to identify if the material is sourced from ancient and endangered forests.</p>	

Additionally, all suppliers are assessed as low risk by the company, but Canopy published an advice note that assess commonly used dissolving pulp manufacturers. There are 2 suppliers with differing ratings between the two risk assessments (section 4.1 of the main report), often due to the need for more information on forest of origin location.

**5. If suppliers contravene these criteria, the MMCF producer will first engage them to change practices and then re-evaluate its relationship with them**

Indicators	Findings
<p>5.1 All MMCF producers' suppliers are identified and the forest of origin is known.**</p>	<p><b>Conformance with Indicator:</b></p> <p><input type="checkbox"/> Not Applicable  <input type="checkbox"/> Commitment Met  <input checked="" type="checkbox"/> Commitment in Progress  <input type="checkbox"/> Commitment Not Met  <input type="checkbox"/> Insufficient Information Available</p> <p><b>Description of the finding:</b>  All dissolving pulp mills are identified. The forest origin for the supplier Domsjo was disclosed. However, the forest of origin for three suppliers (COSMO, AustroCel Hallein, Borregaard) was known only at country level which does not allow full risk assessment and determine the risk level, however, the AustroCel Hallein is classified as low risk by Canopy.</p>
<p>5.2 The MMCF producer has developed procedure for engaging with suppliers, up to withdrawing from purchase and other agreements in situations where non-conformance is found.**</p> <p>(Note: This means potential legal and contractual issues associated with withdrawal are identified and addressed.)</p>	<p><b>Conformance with Indicator:</b></p> <p><input type="checkbox"/> Not Applicable  <input checked="" type="checkbox"/> Commitment Met  <input type="checkbox"/> Commitment in Progress  <input type="checkbox"/> Commitment Not Met  <input type="checkbox"/> Insufficient Information Available</p> <p><b>Description of the finding:</b>  Based on the operating manual, the supplier must comply with Canopy requirement and with the low risk. The performance of active suppliers will be monitored annually.</p> <p>The identified non-compliance will be announced to the suppliers and must be address within 6 months. If the issue cannot be addressed within 6 months, the purchase from the supplier will be terminated.</p> <p>This requirement will be also included in the contract with the suppliers.</p>
<p>5.3 The MMCF producer has documented withdrawals from supply agreements where non-conformance has been found.**</p>	<p><b>Conformance with Indicator:</b></p> <p><input type="checkbox"/> Not Applicable  <input checked="" type="checkbox"/> Commitment Met  <input type="checkbox"/> Commitment in Progress  <input type="checkbox"/> Commitment Not Met</p>

	<input type="checkbox"/> Insufficient Information Available  <b>Description of the finding:</b> <b>Updated based on extra evidences 8<sup>th</sup> May 2020:</b>  Jilin Chemical Fiber suspended the purchase from Borregaard and Cosmo with potential risk because of lack of origin information. The statement on suspending purchasing is available on the company's website: <a href="http://www.jlhxjt.com/xwzx.asp?cid=13&amp;id=2020050211022257981">http://www.jlhxjt.com/xwzx.asp?cid=13&amp;id=2020050211022257981</a> .
--	--

**Summary:**

All dissolving pulp mills are identified. The forest origin for the supplier Domsjo was disclosed. However, the forest of origin for two suppliers (COSMO, , Borregaard) was known at country level only which does not allow full risk assessment and determine the risk level.

Based on the operating manual, the identified non-compliance will be announced to the suppliers and must be address within 6 months. If the issue cannot be addressed within 6 months, the purchase from the supplier will be terminated.

**6. The MMCF producer welcomes interested stakeholders and Leaders Group observers to verify the implementation.**

Indicators	Findings
6.1 Leaders Group and other stakeholder observers are invited to participate freely and to report observations during this verification process.**	<p><b>Conformance with Indicator:</b></p> <input type="checkbox"/> Not Applicable <input type="checkbox"/> Commitment Met <input checked="" type="checkbox"/> Commitment in Progress <input type="checkbox"/> Commitment Not Met <input type="checkbox"/> Insufficient Information Available  <p><b>Description of the finding:</b>            The management confirmed leader group and other stakeholders are welcome to join the verification as observers in the future, and any observations could be reported to the auditor freely.            This indicator is graded as "Commitment in progress" due to the fact that no such practice has happened to date.</p>
6.2 Large scale scientifically based conservation planning, High Conservation Value assessments, and/or High Carbon Value assessment, identifying areas for protection has been completed, based on best available science, by a credible third party, and made public.**	<p><b>Conformance with Indicator:</b></p> <input checked="" type="checkbox"/> Not Applicable <input type="checkbox"/> Commitment Met <input type="checkbox"/> Commitment in Progress <input type="checkbox"/> Commitment Not Met <input type="checkbox"/> Insufficient Information Available  <p><b>Description of the finding:</b>            N/A – no supplier with high risk of sourcing from ancient and endangered forests is used. The suppliers Borregaard and Cosmo with</p>

	potential risk require additional information on sourcing.
<p>6.3 If sourcing from controversial areas with records of conflict and human rights violation, an assessment that includes participatory mapping of lands owned or claimed by indigenous and local communities, identification of areas for protection, areas for conflict resolution and remedy of past harms that involve affected parties, their chosen advisors and relevant stakeholders, have been completed by a credible and mutually agreed third party and made public.**</p>	<p><b>Conformance with Indicator:</b></p> <p><input checked="" type="checkbox"/> Not Applicable  <input type="checkbox"/> Commitment Met  <input type="checkbox"/> Commitment in Progress  <input type="checkbox"/> Commitment Not Met  <input type="checkbox"/> Insufficient Information Available</p> <p><b>Description of the finding:</b>  N/A – no supplier with high risk of sourcing from ancient and endangered forests is used. The suppliers Borregaard and Cosmo with potential risk require additional information on sourcing.</p>
<p>6.4 The MMCF producer has developed a management plan that identifies and measures to protect areas identified in large scale scientifically based conservation planning, HCV and HCS assessments with the Free, Prior and Informed Consent of indigenous and local communities whose land or land claims are impacted and with input from credible ENGOs.**</p>	<p><b>Conformance with Indicator:</b></p> <p><input checked="" type="checkbox"/> Not Applicable  <input type="checkbox"/> Commitment Met  <input type="checkbox"/> Commitment in Progress  <input type="checkbox"/> Commitment Not Met  <input type="checkbox"/> Insufficient Information Available</p> <p><b>Description of the finding:</b>  N/A – no supplier with high risk of sourcing from ancient and endangered forests is used. The suppliers Borregaard and Cosmo with potential risk require additional information on sourcing.</p>
<p>6.5 The MMCF producer has developed and implemented a time-bound action plan to actively seek the legal protection of these areas with final land-use decision-makers in a way that meets principles of Free, Prior and Informed Consent.**</p>	<p><b>Conformance with Indicator:</b></p> <p><input checked="" type="checkbox"/> Not Applicable  <input type="checkbox"/> Commitment Met  <input type="checkbox"/> Commitment in Progress  <input type="checkbox"/> Commitment Not Met  <input type="checkbox"/> Insufficient Information Available</p> <p><b>Description of the finding:</b>  N/A – no supplier with high risk of sourcing from ancient and endangered forests is used. The suppliers Borregaard and Cosmo with potential risk require additional information on sourcing.</p>
<p><b>Summary:</b> The chairman and vice general manager confirmed leader group and other stakeholders are welcome to join the verification as observers. No supplier with high risk of sourcing from ancient and endangered forests is used. The suppliers Borregaard and Cosmo with potential risk require additional information on sourcing.</p>	

**7. The MMCF producer shall recognize, respect and uphold human rights and the rights of communities and workers affected by the operations of their supply chain and affiliated companies.**

Indicators	Findings
------------	----------

7.1 The MMCF producer has developed and requires its suppliers to adopt a similar policy, systems and procedures to implement Free, Prior and Informed Consent of indigenous people and local communities.\*\*

**Conformance with Indicator:**

- Not Applicable
- Commitment Met
- Commitment in Progress
- Commitment Not Met
- Insufficient Information Available

**Description of the finding:**

The company requires its suppliers to adopt a similar policy, systems and procedures to implement Free, Prior and Informed Consent of indigenous people and local communities.

Sourcing policy has been developed and posted on the \_\_\_\_\_ company's website(<http://www.jlhxt.com/xwzx.asp?cid=3&sid=1&id=2019112114522648616>), and **plan to put into contracts with supplier in the future.**

Sourcing risk evaluation report (Canopy 认证长丝木浆采购风险评估报告) finished on December 12<sup>th</sup>,2019 was checked, four suppliers have been evaluated and rank 2 as having no known sourcing issues (with FSC and PEFC certificates); one that requires additional information; and that has potential risk. Through this evaluation, supplier sourcing policies have been understood and evaluated. The company is communicating with its suppliers on related requirements on Free, Prior and Informed Consent of Indigenous people and local communities.

Jilin Chemical Fiber Stock Co. holds a FSC certificate of **SGSHK-COC-310131**, which is valid \_\_\_\_\_ to \_\_\_\_\_ 2022-06-08. (<https://info.fsc.org/details.php?id=a02f300000gHg7oAAC&type=certificate>)

7.2 Suppliers document how they conform with the MMCF producer's commitment to recognize and respect human rights, community rights, First Nations rights and rights of workers.\*\*

**Conformance with Indicator:**

- Not Applicable
- Commitment Met
- Commitment in Progress
- Commitment Not Met
- Insufficient Information Available

**Description of the finding:**

At the time of the audit, the Company lacked evidence from the supplier on how they confirm with the commitment to recognize and respect human rights, community rights, First Nations rights and rights of workers.

As many of the suppliers hold certification (either FSC or PEFC) and have provided sourcing policies, this indicator is being graded as in process.

7.3 The MMCF producer and its suppliers show responsible handling of complaints and resolution of conflicts in a transparent and accountable manner that is mutually agreed by the parties and includes relevant stakeholders.

**Conformance with Indicator:**

- Not Applicable
- Commitment Met
- Commitment in Progress
- Commitment Not Met
- Insufficient Information Available

**Description of the finding:**

The company is FSC certified.

The Company adopt Petitioning system (信访制度) and has the Petitioning system department (信访办) (in charge by the vice-president of HR department) as required by national requirement on state-owned companies.

<Eternal stakeholders Management Criterion> (外部相关方管理标准) (valid on Oct 26th, 2018) is checked, but only limited to safety production aspects.

<Supplies purchasing management standard> (物资采购管理标准) valid on April 20th, 2019 was checked, but there is no related canopy requirement in it;

<The documentation control Regulation> (公司文件审核管理方法) has been approved on Dec 13, 2019, and the working group on documentation modification (管理体系标准文件修订小组) has been established on the same day, which will be responsible for modifying company management documentation system.

The suppliers Domsjo, Borregaard and Cosmo are FSC COC certified companies which could guarantee the conformance to this indicator, as FSC COC certified companies are required to have such a mechanism for their certified scope.

AustroCell has PEFC certificate which also requires a complaints mechanism and resolution.

7.4 The MMCF producer and its suppliers have developed internal capacity and Company structure to recognize and respect the rights of its workers

**Conformance with Indicator:**

- Not Applicable
- Commitment Met
- Commitment in Progress
- Commitment Not Met
- Insufficient Information Available

**Description of the finding:**

This company has developed internal capacity and Company structure to recognize and respect the rights of its workers, such as labor union and OH&S team. During audit, interviews of worker showed their rights are respected.

	<p>The company is holding the certificate of <b>SA 8000:2014</b> with certificate number of 20229-A01(issue date 2019 Jan 22, expire date on 2022 Jan 22).</p> <p>&lt;Contract of Huaqian Group 2018-2020(edition on Feb 2018)&gt;(2018-2020年化纤集团合同, 2018年2月版本) was checked, this documents update every two years, worker benefits based on national labor laws and other worker benefits/rights are covered,</p> <p>Sample <b>Salary slip</b> was checked, and social benefits have been covered. 3 shifts by 4 groups with 8 hours each shift.</p> <p>&lt;Employ Appeal Center Working&gt;(员工诉求中心工作管理制度) valid on March 20, 2019 was checked;</p> <p>&lt;Group company labor union-labor dispute mediation&gt;was checked.</p> <p>The suppliers EKMAN &amp; CO AB and Borregaard AS are FSC certified companies are supplying material with claim, which could provide a high level of confidence that the workers' rights are recognized and respected, as FSC COC certified Companies are required to do this.</p> <p>However, no evidence showed the company's suppliers have developed internal capacity and Company structure to recognize and respect the rights of its workers.</p>
<p>7.5 The MMCF producer has developed procedures to ensure its Tier one suppliers uphold the International Labour Company (ILO) Declaration on Fundamental Principles and Rights at Work and will require the equivalent of their own suppliers.</p>	<p><b>Conformance with Indicator:</b></p> <p><input type="checkbox"/> Not Applicable</p> <p><input checked="" type="checkbox"/> Commitment Met</p> <p><input type="checkbox"/> Commitment in Progress</p> <p><input type="checkbox"/> Commitment Not Met</p> <p><input type="checkbox"/> Insufficient Information Available</p> <p><b>Description of the finding:</b></p> <p>&lt;Employ Appeal Center Working&gt;(员工诉求中心工作管理制度) valid on March 20, 2019 was checked;</p> <p>&lt;Group company labor union-labor dispute mediation&gt;(员工诉求中心工作管理制度)was checked;</p> <p>Since the latest procurement happened on 2017, the new procurement on Dec 23,2019, add a new requirement in "Contract Attachment", which has been agreed by supplier- EKMAN &amp; CO AB.</p> <p>Besides, this company developed "Commitment letter" and "The supply agreement of dissolved pulp", which are under negotiation.</p> <p>The company has requested the supplier to comply with CanopyStyle framework requirements and included it into contracts with the suppliers.</p>

	<p>All suppliers are FSC or PEFC certified companies and the supplier AustroCel Hallein is OHSAS 18001 certified, which could provide a high level of confidence that ILO is upheld via certification requirements.</p>
<p>7.6 Recognition and respect for human rights is demonstrated. There is no evidence of avoiding or failing to resolve social conflicts and remedy past or current human rights violations.**</p>	<p><b>Conformance with Indicator:</b></p> <p><input type="checkbox"/> Not Applicable  <input type="checkbox"/> Commitment Met  <input checked="" type="checkbox"/> Commitment in Progress  <input type="checkbox"/> Commitment Not Met  <input type="checkbox"/> Insufficient Information Available</p> <p><b>Description of the finding:</b></p> <p>This company is holding the certificate of <b>SA 8000:2014</b> with certificate number of 20229-A01(issue date 2019 Jan 22, expire date on 2022 Jan 22);</p> <p>The company is holding the certificate of <b>SGSHK-COC-310131</b>, which is valid to 2022-06-08.</p> <p>Recognition and respect for human right is included in the Company's policy. Within the Company, there is a labor union which actively engages in the management of the Company.</p> <p>The Company and all suppliers are FSC or PEFC certified companies and the supplier AustroCel Hallein is OHSAS 18001 certified.</p> <p>However, most of the materials are not being received with certification claims to ensure this commitment is met all throughout the supply chain, back to the forest.</p>
<p><b>Summary:</b> Recognise, respect and uphold human rights and the rights of communities and workers was included in the Company's policy. Some suppliers have signed a commitment letter that includes a commitment to implement FPIC of indigenous people and local communities.</p> <p>All suppliers are FSC or PEFC certified companies and the supplier AustroCel Hallein is OHSAS 18001 certified, which could provide a high level of confidence that ILO is upheld via certification requirements and the responsible handling of complaints and resolution of conflicts is in place. The Company does hold FSC certification. In 2017 the company purchased 500tons FSC Mix Credit pulp from Domsjo and on 23<sup>rd</sup> December 2019 the company signed the purchase contract with the same supplier covering 1,000 tons FSC Mix Credit dissolving pulp, which can provide a level of confidence that these commitments are met, however, most of the materials are not being received with certification claims to ensure this commitment is met all throughout the supply chain, back to the forest.</p>	

8. Development of Innovative and Alternative Fibre	
Indicators	Findings
<p>8.1 The MMCF producer has developed and implemented an internal action plan to collaborate with innovative companies and suppliers to explore and encourage the development of new alternative fibre sources that reduce environmental and social impacts,</p>	<p><b>Conformance with Indicator:</b></p> <p><input type="checkbox"/> Not Applicable  <input type="checkbox"/> Commitment Met  <input checked="" type="checkbox"/> Commitment in Progress</p>

such as agricultural residues and recycled fibres.\*\*

- Commitment Not Met
- Insufficient Information Available

**Description of the finding:**

At the time of the audit, the Company has an internal action plan to explore and encourage the development of new alternative fibre sources, such as recycled fibres and agricultural residues. The company is researching the new product with input of recycled cotton fiber in collaboration with the company Re: newcell. The collaboration agreement and the testing records are presented.

The company has researched the technology of making the pulp by using corn husks with the sample of the pulp and testing results provided.

The MMCF purchased cotton pulp made of recycled cotton short fiber surrounding cotton seeds from farmers (cotton linter) which accounts for 67% of the input raw material. Canopy does not consider cotton linter raw material as an alternative fiber.

**Updated based on extra evidences 8<sup>th</sup> May 2020:**

Jilin Chemical Fiber has been certified by Recycled Claim Standard (below is screenshot from the certificate). The cotton linter is recognised by RCS as pre-consumer cotton pulp.

Product Annex to certificate no: J15768-R2-2019-000084

**Jilin Chemical Fiber Stock Co., Ltd.**  
**Recycled Claim Standard 2.0**

In specific the certificate covers the following products:

PRODUCT CATEGORY	PRODUCT DETAILS	MATERIAL COMPOSITION	LABEL GRADE
Yarn	Viscose Rayon Filament Yarn	100% Pre-consumer recycled cotton pulp	RCS 100
Fiber	Viscose Staple Fiber	100% Pre-consumer recycled cotton pulp	RCS 100

Lowell, MA, USA, 23 April 2020

Name of the authorized person

  
Galin Moldovan

The extra evidence doesn't change the conclusion that the cotton linter raw material as Canopy doe not currently consider cotton linter as an alternative fiber,

8.2 The research and development phase for the production of pulp and cellulosic fibre made from alternative fibre sources has been successfully completed and the MMCF producer is entering a commercial scale phase.

**Conformance with Indicator:**

- Not Applicable
- Commitment Met
- Commitment in Progress
- Commitment Not Met
- Insufficient Information Available

**Description of the finding:**

In 2019, the company purchased 2022 tons bamboo pulp which accounts for 3% of the input raw material and the bamboo viscose rayon has been in commercial production. However, the bamboo pulp is not FSC certified, it can be not deemed as alternative pulp.

**Updated based on extra evidences 8<sup>th</sup> May 2020:**

The bamboo pulp is purchased from the pulp mill – Sichuan Tianzhu who holds a valid FSC-COC certificate, DNV-COC-001470. Jilin Chemical Fiber collected the certificate of the supplier and declared Yibing city where the supplier is located boosts abundant bamboo resource. They can purchase certified bamboo pulp in the future.

However, no evidences have been demonstrated (such as sales documentation with FSC certified claims) that the purchased bamboo pulp meets the [seven criteria](#) established by Canopy for bamboo pulp as alternative pulp.

**Summary:** At the time of the audit, the Company has an internal action plan to explore and encourage the development of new alternative fibre sources, such as recycled fibres and agricultural residues. The company is researching the new product with input of recycled cotton fiber in collaboration with the company Re:newcell. The collaboration agreement and the testing records are presented.

The company has researched the technology of making the pulp by using corn husks with the sample of the pulp and testing results provided.

**9. Advocacy for conservation solutions**

**Indicators**

9.1 The MMCF producer has a track record of participating in events and taking actions that support collaborative and visionary system solutions that aim to protect remaining ancient and endangered forests. \*\*

**Findings**

**Conformance with Indicator:**

Re: Support for the conservation of ancient forests on Vancouver Island.  
回复：支持温哥华岛原始森林的保护方案

Dear Premier Horgan,

尊敬的 Horgan 省长，

Our company, JILIN CHEMICAL FIBER STOCK CO.,LTD, headquartered in JILIN CITY CHINA, has a policy in place with Canopy to advance the conservation of ancient and endangered forests, which is detailed here: <http://www.jlfc.com>

我司吉林化纤股份有限公司（总部位于中国吉林）与 Canopy 合作制定了保护原始濒危森林的政策，链接如下：<http://www.jlfc.com>

As part of our commitment we look across global forest landscapes at the impacts that our procurement of forest products, including wood, chips and dissolving pulp, has on natural forest ecosystems. With annual consumption of 19000 TONS of wood and pulp globally, we feel a deep responsibility to actively support conservation efforts in the world's last areas of high carbon and bio-diverse forests.

我们承诺保护全球森林景观，特别是减小木材、木片和溶解浆等森林产品的采购对于自然森林生态系统的影响。我们每年消耗 19000 吨的木材和木浆，因此深感有责任支持全球尚存的高碳汇和高生物多样性森林的保护。

An area that has caught our attention is the coastal temperate rainforests of Vancouver Island. With more than eighty percent of Vancouver Island's ancient forests having already been logged, we understand that now is a critical time to ensure that the last tracts of these ecologically significant forests are protected. These areas include Clayoquot Sound, and increasingly are stands of intact ancient forest, such as the Walbran, still found across Vancouver Island. Sourcing from Vancouver Island's rainforests is currently of concern due to the potential risk it presents of being in violation of our CanopyStyle policy commitment to not source from ancient and endangered forests.

其中值得关注的包括温哥华岛沿海温带雨林。80%的温哥华岛原始森林已经被开采，因此保护尚存的高生态价值森林势在必行，其中包括 Clayoquot Sound 以及 Walbran 等温哥华岛极其稀有的完整原始森林。对于采购温哥华岛森林产品，我们将格外谨慎，因为这违背了原始濒危森林零采购的 CanopyStyle 承诺。

It is therefore with much interest that we are encouraged to learn of work your government is doing with First Nations in Clayoquot Sound toward conservation of ancient forests within their traditional territories and to support these Nations' land use visions. We're also encouraged by the support recently announced by the Canadian Federal government toward this important work. We ask that your government ensure that timely progress is made to secure legislated protection of Clayoquot Sound and meaningful steps are taken immediately to conserve and protect the island's other remaining tracts of biologically diverse, carbon-rich ancient forest ecosystems.

The company donated 10,000 CNY to support the conservation of the intact forest in Changbai Mountain Nature Reserve.

Donation agreement

森林资源保护公益捐赠协议

甲方：吉林化纤股份有限公司

乙方：长白山自然保护管理中心

依据《中华人民共和国公益事业捐赠法》、《中华人民共和国合同法》及有关法律、法规、规章的规定，甲、乙双方在平等、自愿的基础上，就甲方参与乙方原始森林保护相关事宜，协商一致签订本合同。具体内容如下：

第一条

- 1、公益捐赠目的：保护长白山保护区原始森林。
- 2、公益捐赠内容：价值壹万元人民币的森林资源管护装备。

9.4 The MMCF producer is developing and implementing specific programs to increase the endangered species population and the maintenance of their habitat through time, with government and/or ENGO programs. \*\*

Conformance with Indicator:

- Not Applicable
- Commitment Met
- Commitment in Progress
- Commitment Not Met
- Insufficient Information Available

Description of the finding:

**Summary:** The Company has positively engaged in the recent Canopy Summit and requested all suppliers to make commitments on FPIC. The company donated 10,000 CNY to support the conservation of the intact forest in Changbai Mountain Nature Reserve.

10. Responsible forest management	
Indicators	Findings
10.1 The MMCF producer has defined criteria for responsible forest management, gives a preference for FSC certification and has developed and implemented an action plan to increase FSC intake. **	<p><b>Conformance with Indicator:</b></p> <p><input type="checkbox"/> Not Applicable  <input type="checkbox"/> Commitment Met  <input checked="" type="checkbox"/> Commitment in Progress  <input type="checkbox"/> Commitment Not Met  <input type="checkbox"/> Insufficient Information Available</p> <p><b>Description of the finding:</b></p> <p>In 2017, the company purchased 500tons FSC Mix Credit pulp from Domsjo through the trader Ekman.</p> <p>In 2018, no FSC certified pulp was purchased.</p> <p>On 23<sup>rd</sup> December 2019, the company has signed the purchase contract with the same supplier covering 1,000 tons FSC Mix Credit dissolving pulp.</p> <p>Based on the Action plan developed by the company, it gives preference to the certified pulp and plans to increase the purchase FSC certified pulp in the future.</p>
<p><b>Summary:</b> Based on the action plan developed by the company, it gives reference to the certified pulp and plans to increase the purchase FSC certified pulp in the future.</p>	

11. Reduction of Greenhouse Gas (GHG) Footprint by Recognizing the importance of forests and peatlands as carbon storehouses	
Indicators	Findings
11.1 The MMCF producer has developed and implemented procedures to evaluate their suppliers' performance in reducing GHG.	<p><b>Conformance with Indicator:</b></p> <p><input type="checkbox"/> Not Applicable  <input type="checkbox"/> Commitment Met  <input checked="" type="checkbox"/> Commitment in Progress  <input type="checkbox"/> Commitment Not Met  <input type="checkbox"/> Insufficient Information Available</p> <p><b>Description of the finding:</b></p> <p>The Company has procedures to require the suppliers to provide evidences of reducing GHG. However, at the time of this audit, the company did not provide the information from the suppliers on their efforts to reduce GHG footprint.</p>
11.2 The MMCF producer can document giving preference to suppliers that have identified and adopted management measures to protect forests, forested peatland at the concession and landscape level (peat dome) and identify, withdraw from and restore peatlands and their hydrology. **	<p><b>Conformance with Indicator:</b></p> <p><input type="checkbox"/> Not Applicable  <input type="checkbox"/> Commitment Met  <input checked="" type="checkbox"/> Commitment in Progress  <input type="checkbox"/> Commitment Not Met  <input type="checkbox"/> Insufficient Information Available</p>

	<p><b>Description of the finding:</b> Based on the operating manual, the Company will give preference to the certified pulp and the suppliers that have management measures to protect forest and peatlands.</p>
<p><b>Summary:</b> The Company requires the suppliers to provide evidences of reducing GHG. However, at the time of this audit, the company did not provide the information from the suppliers on their efforts to reduce GHG footprint. Based on the operating manual, the Company will give preference to the certified pulp and the suppliers that have management measures to protect forest and peatlands.</p>	

12. Pollution Prevention	
Indicators	Findings
<p>12.1 This verification process <u>will not</u> address the pulp and viscose manufacturing process which can lead to air and water emissions that impact overall environmental quality. However, it will be noted when MMCF producers invest in and use the cleanest dissolving pulp and viscose manufacturing technology (i.e. lyocell process). The indicators will be the number of mills using such cleaner processes and the % of overall volumes produced with such technology. This information will be treated and framed as additional bonus performance by the MMCF producer.</p>	<p><b>Conformance with Indicator:</b></p> <p><input type="checkbox"/> Not Applicable  <input type="checkbox"/> Commitment Met  <input checked="" type="checkbox"/> Commitment in Progress  <input type="checkbox"/> Commitment Not Met  <input type="checkbox"/> Insufficient Information Available</p> <p><b>Description of the finding:</b> According to the energy audit report 2018 for conducted by the government, the comprehensive energy consumption was lower 336.23 kgce/t during last period. The mill saved 1.61 million kwh, 60,000 t steam and 750,600 t water.</p> <p>The company innovated evaporation recycling technology independently with patent and awarded by local government. Since 2002, the Company has used this technology in spinning workshop where the 98% of water can be recycled. 公司自己研发二次蒸汽回收技术, 获得专利和进步奖。2002 年开始在纺丝车间应用, 水的循环回收利用率 98%。</p> <p>The company also presented the evidences of several other improvements for saving water &amp; energy.</p>
<p><b>Summary:</b> The company innovated evaporation recycling technology independently with patent and awarded by the government. Since 2002, the Company has used this technology in spinning workshop where the 98% of water can be recycled.</p>	

## Appendix B: STANDARD CHECKLIST (CanopyStyle Verification Framework – Viscose Mill Checklist)

### 1. Evaluation of Participating site: Viscose Mill of the company

<b>Primary Responsible Person:</b> (Responsible for control system at site(s))	Li Kui, Vice GM
<b>Auditor(s):</b>	Gaojun Zhao, Guangxin Wang
<b>People Interviewed, Titles:</b>	<ul style="list-style-type: none"> <li>- Ms. Kong Yuying, Production manager;</li> <li>- Ms Ma Chunling, warehouse;</li> <li>- Li Honglei, EHS supervisor;</li> <li>- Ms. Li Dan, Energy workshop;</li> <li>- Ms. Zhao Yanqiu, product warehouse;</li> <li>- Mr. Peng Liwei, director of colloid making workshop;</li> <li>- Liu Li'na, technician at colloid making workshop;</li> <li>- Yuan Yuyao, technician at colloid making workshop;</li> <li>- Zhou Yonghui, worker at colloid making workshop;</li> <li>- Li Chao, director of spinning workshop;</li> <li>- Wei Haiying, technician of spinning workshop;</li> <li>- Liu haibo, Environment protection.</li> </ul>
<b>Brief Overview of Audit Process for this Location:</b>	<i>Please refer to Section 2.3 above for Description of Overall Audit Process.</i>
<b>Comments:</b>	This mill is responsible for viscose filament rayon production and storage of material and products.

### 2. Standard Checklist

<b>1. The MMCF producer has publicly communicated and is implementing their Fibre Sourcing/Forest Policy</b>	
<b>Indicators</b>	<b>Findings</b>

<p>1.10 Key managers at each production site/mill are aware of the Policy and demonstrate a similar commitment to implement it. **</p>	<p><b>Conformance with Indicator:</b></p> <p><input type="checkbox"/> Not Applicable</p> <p><input checked="" type="checkbox"/> Commitment Met</p> <p><input type="checkbox"/> Commitment in Progress</p> <p><input type="checkbox"/> Commitment Not Met</p> <p><input type="checkbox"/> Insufficient Information Available</p> <p><b>Description of the finding:</b></p> <p>The policy was public on the company's website:</p> <p>The Company organized several training sessions on the policy and Canopy requirements before the audit. Training records were provided for auditor review.</p>
--	--

	<p>Training to middle and top management level, 8April2019;  Training to all relevant staff, 11June2019;</p> <p>Auditor interviewed key managers of this mill who are aware of wood sourcing policy, definition of ancient and endangered forests and controversial sources.</p>
<p>1.11 Each production site's/mill's managers have developed procedures to implement the Policy, when relevant.**</p>	<p><b>Conformance with Indicator:</b></p> <p><input type="checkbox"/> Not Applicable  <input checked="" type="checkbox"/> Commitment Met  <input type="checkbox"/> Commitment in Progress  <input type="checkbox"/> Commitment Not Met  <input type="checkbox"/> Insufficient Information Available</p> <p><b>Description of the finding:</b></p> <p>The Company shared the standard operating procedure with the mill that ensures the wood sourcing policy is implemented.</p> <p>The material from different suppliers can be clearly identified with identification card. The material with high risk was stored separately and documented.</p>
<p><b>Summary:</b> Wood pulp procedure has been established and public on the website of the Company. Trainings were on related procedures and Wood Sourcing Policy has been held. The managers are aware of the policy and procedures.</p>	

2. Sourcing from transparent supply chains that are in conformance with the policy.	
Indicators	Findings
<p>2.6 The production site/mill maintains all <u>purchase and sales</u>, documentation related to the wood fibre <u>inputs</u>. Such documentation includes an identification of the forest of origin.</p>	<p><b>Conformance with Indicator:</b></p> <p><input checked="" type="checkbox"/> Not Applicable  <input type="checkbox"/> Commitment Met  <input type="checkbox"/> Commitment in Progress  <input type="checkbox"/> Commitment Not Met  <input type="checkbox"/> Insufficient Information Available</p> <p><b>Description of the finding:</b></p> <p>The mill does not involve in sourcing wood pulp sourcing.</p> <p>The material receipt and product delivery are documented at the warehouse, such as bill of lading, product delivery note. The production workshop and warehouse maintain records of the input volume of pulp from different suppliers every day. The warehouse keeps the records of production delivery.</p>
<p>2.7 The mill/production site maintains all <u>delivery documentation</u> received with the wood</p>	<p><b>Conformance with Indicator:</b></p> <p><input type="checkbox"/> Not Applicable</p>

<p>fibre <u>inputs</u>. Such documentation includes an identification of the forest of origin.</p>	<p> <input type="checkbox"/> Commitment Met  <input checked="" type="checkbox"/> Commitment in Progress  <input type="checkbox"/> Commitment Not Met  <input type="checkbox"/> Insufficient Information Available         </p> <p><b>Description of the finding:</b></p> <p>The mill has no sourcing activity of wood pulp.</p> <p>The mill maintains the delivery documents of wood pulp, such as bill of landing. However, the forest of origin is not presented on these documentations.</p>
<p>2.8 When sourcing from certified or verified land origin, the supplier code and claim for the applicable third-party verification is included on sales and delivery documentation.</p>	<p><b>Conformance with Indicator:</b></p> <p> <input type="checkbox"/> Not Applicable  <input checked="" type="checkbox"/> Commitment Met  <input type="checkbox"/> Commitment in Progress  <input type="checkbox"/> Commitment Not Met  <input type="checkbox"/> Insufficient Information Available         </p> <p><b>Description of the finding:</b></p> <p>The mill has no sourcing activity of wood pulp.</p> <p>The certification code and claim is included on the commercial invoice and packing list from the supplier Ekman (the trader of Domsjo pulp).</p>
<p>2.9 The production site maintains a summary of annual purchases and then sales to the MMCF producer.</p>	<p><b>Conformance with Indicator:</b></p> <p> <input checked="" type="checkbox"/> Not Applicable  <input type="checkbox"/> Commitment Met  <input type="checkbox"/> Commitment in Progress  <input type="checkbox"/> Commitment Not Met  <input type="checkbox"/> Insufficient Information Available         </p> <p><b>Description of the finding:</b></p> <p>The mill has no sourcing activity of wood pulp.</p> <p>The corporate office maintains the records of annual purchase and sales.</p>
<p>2.10 All Suppliers provide <u>outgoing</u> transportation documents that include the forest/plantation of origin and certification status if relevant</p>	<p><b>Conformance with Indicator:</b></p> <p> <input type="checkbox"/> Not Applicable  <input type="checkbox"/> Commitment Met  <input checked="" type="checkbox"/> Commitment in Progress  <input type="checkbox"/> Commitment Not Met  <input type="checkbox"/> Insufficient Information Available         </p> <p><b>Description of the finding:</b></p> <p>The delivery note from the company will carry FSC certificate code and claim according to their FSC procedure.</p>

	However, the delivery note does not include the forest/plantation of origin.
--	--

**Summary:** The mill is not involved in purchasing. The delivery documentations are maintained. Certificate code and claim are included in the invoice and packing list from suppliers for certified dissolving. However, neither the delivery documentation from the suppliers nor that from the company does not include the forest of origin.

**4. Sourcing from ancient and endangered forests and other controversial sources have been eliminated.**

Indicators	Findings
4.4 The production site/mill is aware of all relevant local, national and international laws and there is no evidence of non-compliance, with local, national or international laws. **	<p><b>Conformance with Indicator:</b></p> <p><input type="checkbox"/> Not Applicable  <input checked="" type="checkbox"/> Commitment Met  <input type="checkbox"/> Commitment in Progress  <input type="checkbox"/> Commitment Not Met  <input type="checkbox"/> Insufficient Information Available</p> <p><b>Description of the finding:</b>  The interviews to the management confirmed they were aware all relevant laws and regulations.  Auditor reviewed the legally required documents in China, such as business licence, environment impact assessment, export license, etc.  At the time of this audit, there is no news and information in the public domain that the organization is non-compliance with national and international laws. The Company has the valid certificates of the ISO9001 quality system, ISO14001 Environment Management System, SA 8000, FSC-COC, etc.</p>
4.5 Production site/mill understands the definitions of Ancient and Endangered forests and controversial sources. They also comply with the commitment to not procure wood from Ancient and Endangered forests and controversial sources.	<p><b>Conformance with Indicator:</b></p> <p><input type="checkbox"/> Not Applicable  <input checked="" type="checkbox"/> Commitment Met  <input type="checkbox"/> Commitment in Progress  <input type="checkbox"/> Commitment Not Met  <input type="checkbox"/> Insufficient Information Available</p> <p><b>Description of the finding:</b>  The mill has no sourcing activity of wood pulp.  By interviews, the management staff of the mill demonstrated their understandings on ancient and endangered forests and controversial sources.</p>
4.6 Production mills have conducted assessment of presence of ancient and endangered forests and other controversial forests in their wood supply areas.	<p><b>Conformance with Indicator:</b></p> <p><input checked="" type="checkbox"/> Not Applicable  <input type="checkbox"/> Commitment Met</p>

	<input type="checkbox"/> Commitment in Progress <input type="checkbox"/> Commitment Not Met <input type="checkbox"/> Insufficient Information Available  Description of the finding: The assessment was conducted by sourcing department at headquarters.
4.7 The sourcing from regions that contain Ancient and Endangered forests and other controversial sources is verified to low risk by this CanopyStyle audit.	Conformance with Indicator: <input checked="" type="checkbox"/> Not Applicable <input type="checkbox"/> Commitment Met <input type="checkbox"/> Commitment in Progress <input type="checkbox"/> Commitment Not Met <input type="checkbox"/> Insufficient Information Available  Description of the finding: Risk assessment and supplier assessment were conducted by the group headquarter.  Detailed findings please refer to section 2 of the checklist for Corporate Sourcing (headquarters)
<p><b>Summary:</b> The interviews with the management indicates they were aware all relevant laws and regulations. At the time of this audit, there is no news and information in the public domain that the organization is non-compliance with national and international laws. Key managers of each position demonstrated awareness of definitions of Ancient and Endanger forests and controversial sources. Supplier assessment and material sourcing risk were evaluated by the HQ's sourcing office.</p>	

5. Actions if suppliers contravene criteria	
Indicators	Findings
5.4 Production sites/mills have a documented program for monitoring performance of suppliers which includes procedures for identifying non-conformances to the CanopyStyle policy and sanctions to suppliers in such cases where non-conformances are identified.	<b>Conformance with Indicator:</b> <input checked="" type="checkbox"/> Not Applicable <input type="checkbox"/> Commitment Met <input type="checkbox"/> Commitment in Progress <input type="checkbox"/> Commitment Not Met <input type="checkbox"/> Insufficient Information Available  <b>Description of the finding:</b> Supplier performance monitoring program was conducted by the group headquarter.
<p><b>Summary:</b> Supplier performance monitoring program was conducted by the HQ.</p>	

---

## Appendix C: RECOMMENDATIONS FOR IMPROVEMENT

### Recommendations for Jilin Chemical Fiber Stock Co. for continuous improvement

Canopy applauds Jilin for embarking on the verification process in late 2019, very quickly after adopting a wood sourcing policy. The audit shows that Jilin staff are well-trained on the policy content, that the company is communicating its policy requirements to its suppliers, and has taken action to mitigate risk in its supply chain.

As a result of these efforts, the company is currently on the path to achieving low risk of sourcing from Ancient and Endangered Forests.

The CanopyStyle audit is a learning opportunity, and in the spirit of continuous improvement, additional actions can be taken over time to fully implement Jilin's policy commitments. Based on the review of the audit report, Canopy recommends the following next steps:

1. Continue to screen suppliers for risk, and provide evidence for this at the next CanopyStyle annual audit;
2. Continue to invest in the development of next generation low impact alternative fibres, such as recycled textile waste and agricultural waste, and develop targets and timelines for commercial use;
3. Implement the company's action plan to increase the amount of FSC certified fibre used, with a preference for fibre from FSC certified forests (FSC 100%);
4. Build on the company's initial action to support the conservation of a key landscape of hope in Vancouver Island, to include advocacy for other key regions globally;
5. Ensure that all bamboo fibre inputs are 100% FSC forest management certified, with corresponding claims.

We recommend that the company develop an action plan to address these priority issues, so that they can be addressed before the next annual audit.

As mentioned in the CanopyStyle audit framework, ongoing audits and/or random site visits will be essential to ensure that Jilin continues to implement their policy and meets the expectations of the CanopyStyle Initiative.

Once again, we congratulate you for the timely completion of the audit and for proactively taking steps to address risk in your supply chain. We look forward to continuing to work collaboratively with Jilin.
